Enhancing Web Experiences: Leveraging JavaScript and Three.js for Seamless 3D Model Integration

Internship Projects and Work Presentation
Jayesh Bhutan
209302182

Welcome to the presentation on *Enhancing Web Experiences* through **JavaScript** and **Three.js**. The websites I developed over the duration of my internship at ADesignGuy feature heavy use of this library. Over time my javascript skills got sharper and more refined as well.
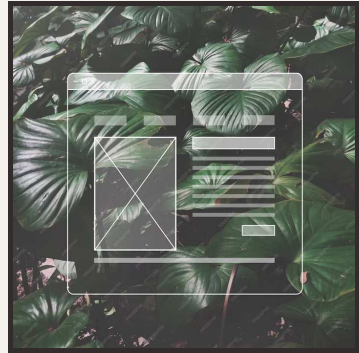

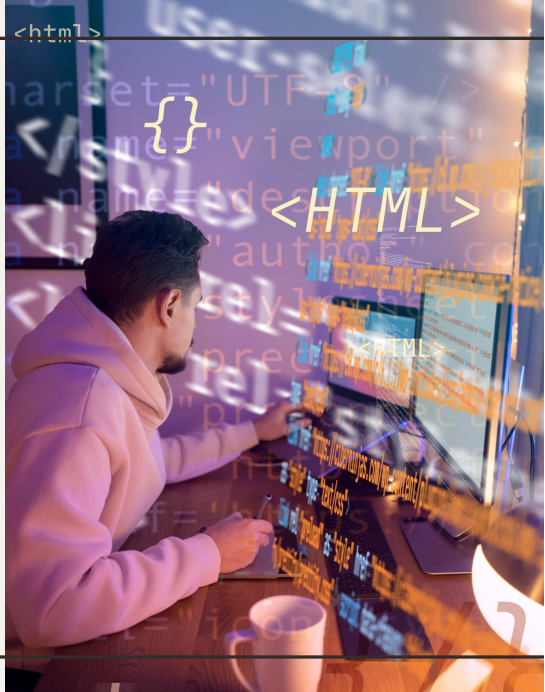

Introduction to Three.js

An overview of **Three.js**, a popular 3D library for JavaScript. Exploring its capabilities for creating and manipulating 3D models in web applications.

Seamless 3D Model Integration and clients who the websites were built for

Pixelated Egg
Lille AI
Pro Rata
Gen SOS
VIVO

Conclusion

Thanks!

Jayesh Bhushan
